Safari Club International (SCI)

is a world-wide organization that promotes wildlife conservation and education, provides services for people in need, and functions as an advocate for hunters and hunting. SCI's Mission Statement is: To protect and preserve our hunting heritage through wildlife conservation, education, legislative and humanitarian efforts.

Our local Central Missouri Chapter of SCI

was created in 1999 to promote, educate and conserve the traditions of hunting. The founding members believed in the ideals and ethics proposed by SCI and wanted to be a part of this wonderful organization. There were 25 chapter members who made this dream become a reality. The members wanted to make a difference in the lives of Missourians and others around the United States. So, they took on four charitable projects: Safari Wish, Sensory Safari, Sportsman Against Hunger, and Hunter Education. These programs have had a huge impact on the people we serve. In addition to our main goals, we also have provided funding for one young man to attend a camp for children with diabetes, conducted many hunter safety classes, reached thousands of people regarding hunting rights, conservation, and SCI goals and objectives through the use of the Sensory Safari Trailer, hosted bone marrow drives, and received recognition from the Missouri Senate, local newspapers, radio stations and even national television!

Sportsmen Against Hunger

is a program to help feed Missouri's needy. Hunters who wish to donate venison after a successful deer hunt can donate from one pound to a whole deer at one of our participating processors, and the Chapter along with the Conservation Federation of Missouri pays the processing cost and distribution for whole deer donations. During the past 26 years we have donated 439,594 pounds of venison to charities in central Missouri. This program is part of the statewide program known as Share the Harvest. Sportsmen Against Hunger Coordinator is DJ Moore at couragereport@gmail.com, (314) 598-0418.

Safari Wish

is designed to fulfill the wishes of kids battling life-threatening illnesses by taking them hunting and fishing. The taxidermy work is included. To see the smile on the kids' faces and the joy of their parents is something to behold! We have taken several kids on a Safari Wish and we are looking for 2 or 3 more to grant wishes to in the next year. If you know anyone, please contact Safari Wish Coordinator: Walter Coleman at safariwish@cmcsci.com, (573) 220-1758.

Thank You!

This has all been made possible by the generous donations of various businesses, charitable organizations, outfitters, members of the Central Missouri Chapter of SCI, and all our supporters. Thank you for attending our auction and banquet; it helps provide funding for all our programs so we can continue to make a difference in the lives of people in our local community!

2. "RAW"

This captivating piece, vividly portrays the fierce intensity of a lion. Peter Stewart, a South African wildlife artist, is celebrated for his highly representational wildlife art. With a deep passion for the African bush, he has spent many months exploring the continent, from Cape Town to Cairo. His self-taught artistic skills, honed through years of study and practice, enable him to create works that resonate deeply with viewers. Stewart's work reflects a profound connection with his subjects, achieved through his understanding of wildlife. His paintings convey the raw beauty of nature.
